

Your Gene Therapy Contact Information

It is important that you stay in contact with Innovative Hematology/IHTC after your gene therapy infusion. For your safety and for the best chance for the gene therapy to work, your doctor needs to know everything going on with your health before and during the follow-up period.

If you call, tell the staff that you are a gene therapy patient right away. They will put you in touch with staff that know about your treatment.

Your primary Innovative Hematology/IHTC doctor: _____

During Innovative Hematology business hours (Mon-Fri 8am-5pm)

- Call **317.829.7778** for the pharmacy main line
- **Tell them you are a gene therapy patient**

During evenings, weekends, and holidays

- Call **317.871.0000** or **877.256.8837** to call the after-hours answering service.
- Press 0 and **tell them that you are a gene therapy patient**. They will contact an Innovative Hematology doctor who will call you back shortly.

Contact Innovative Hematology/IHTC right away about:

- **Any changes in your health, including**
 - **New problems**
 - **New symptoms**
 - **New medicines including herbal supplements**
- **If you need urgent or emergency care**
